# What do you Need to Implement Rigorous Programs of Study?

Ms. Debra Mills, CORD

Mr. Seth Derner, SCCI

# Today's Session

- Background
- Overview of plans
- Listening to your feedback

# Background

- Programs of Study
  - Introduced in Perkins IV
  - Initial implementation occurring now
  - OVAE funding best practices in states
  - OVAE developing a rubric for self-evaluation
- Future:
  - More rigor
  - More focused on "college and career readiness"
  - More system-wide integration

# To get to a "future state" of Rigorous Programs of Study…

- What do most people already "get"?
- What do most people think they need?
- What do most people really need?

# Perceived System Needs

- Past the initial understanding phase of pathways and Programs of Study

- Need more in-depth, how-to professional development

- Need access to insights about how to grow at a partnership/system level AND at the classroom implementation level

# Survey

- We've made some assumptions about which topics are of greatest interest.

- Please complete survey to help us check assumptions

# An Overview

- Series of professional development workshops
  - By need identified from self-evaluation rubric

  - For system/partnership leaders

  - Jointly informed and designed
    - CORD and SCCI

  - Onsite workshop with materials and online resources available following the training

  - Potential "network" of like-minded systems/partnerships to access and collaborate

# What do you think?

- Type/delivery of Professional Development?

- Value of resource materials?

- Value of network?

- What's missing?

- What else?

- How will you manage professional development locally?

# Thanks!
