

Career Technical Education (CTE) is a proven strategy that expands options for learners, empowers them to choose a meaningful and sustainable career, and prepares them with realworld skills for success in college and careers. Through hands-on learning, engagement with industry experts and rigorous academic and career-focused coursework, CTE is learning that works for Michigan's students – and its economy.

CTE Works for Learners in Michigan

CTE Enrollment¹

High School Graduation

107,930 High School

115,354 Postsecondary **80%** Michigan Average² **97%** CTE Concentrators³

Outcomes for Learners in Michigan⁴

96%

high school CTE graduates enrolling in college, enlisting in the military or working within six months

69%

postsecondary CTE students staying enrolled and/or transferring

32%

postsecondary CTE students earning a credential, certificate or degree

78%

postsecondary CTE graduates placed in careers or further training within six months

• Fun fact: Individuals who earned associate's degrees in Michigan earned \$1,560 (men) and \$2,540 (women) more per quarter than others who did not earn a degree.⁵

CTE Works for Michigan's Economy

- Middle-skill jobs those requiring some postsecondary education and training, but not a Bachelor's degree account for 54 percent of Michigan's labor market.
- However, only 48 percent of workers in Michigan are qualified to fill these middle-skill jobs,⁷ leading to a skills gap that CTE can help address.
- In total, 53,804 associate's degrees or certificates were awarded in Michigan in 2015 about 38 percent of all
 postsecondary degrees and certificates.⁸

In Michigan, the top middle-skill occupations with the highest projected job openings are in the Health Science Career Cluster.⁶
