# NCTEF Board of Directors' Conference Call MINUTES March 20, 2015 3 - 4 p.m. ET

Attendees: Rod Duckworth, John Fischer, Jo Anne Honeycutt, Cheryl Carrier, Bill Symonds,

Tim Hodges

Staff: Kimberly Green, Kate Blosveren, Karen Hornberger

Welcome: Duckworth welcomed the NCTEF Board to the call.

**Review and Approval of Minutes:** Honeycutt presented the minutes from the January 27, 2015 NCTEF Board Meeting.

**MOTION:** To approve the January 27, 2015 NCTEF Board Minutes.

Fischer; Symonds. MOTION ADOPTED.

**Mission/Vision and Theory of Action:** Blosveren presented an updated version of the NCTEF mission and theory of action. The vision, which hasn't changed, is shared between NASDCTEc and NCTEF. The theory of action and mission/vision will drive the work for the foundation. Since it was drafted last year and the Board talked through it in January, a couple of changes have been made. The goal of today's call is to get feedback on this document and to finalize it as the new mission and theory of action for NCTEF.

Blosveren shared that she met with a communications firm and that they raised a concern that the proposed new name - Learning that Works Foundation – could be problematic. Since the CTE Learning that works for America campaign is already being used by nearly every state and is so intertwined with NASDCTEc's branding and communication, re-naming NCTEF as such could lead to brand confusion. Blosveren suggested that we pause on finalizing the name to see how we end up approaching the work and have a clear plan in place before making the final decision.

Blosveren asked if the mission statement and the theory of action makes sense, if there is any suggested feedback or questions or if the Board is ready to move forward with this document as it stands.

Honeycutt and Duckworth both support what is laid out and recommend that we move forward. Hodges stated that he is supportive of the proposal and agrees that the two organizations should have separate and distinct mission statements. Hodges asked if it made sense to hold some of the meetings together where they cross information as he found that it was a good learning experience for him to hear and learn what was being done and said at the NASDCTEc Board meetings.

Symonds supports the strands of work and stated that technical assistance should be a key area of found for the Foundation. He asked about how the Foundation would allocate time to the different areas, and what potential revenue streams would be. Blosveren noted that the Board will dig more deeply into the areas of work and capacity at the April meeting.

Carrier agrees with the proposed direction for the Foundation.

MOTION: To approve the Mission, Vision and Theory of Action as presented. Carrier; Hodges.
MOTION ADOPTED.

Blosveren thanked the Board and asked that they come to the meeting in April with more thoughts and ideas to discuss.

**Proposed NCTEF Board Criteria/Governance:** Green stated just as we are reframing the work of the Foundation, it also makes sense to look at the criteria for the future public leaders who will serve on the Board.

Green reviewed the proposed nominations criteria for the public positions on the NCTEF Board. The draft proposal recommends that rather than having three public member positions that can meet any of the criteria, it is recommended that each public member have a 'category' that reflects an influential stakeholder/community:

- One representative from the employer community
- One representative from the philanthropic community
- One representative from a high-priority partner

The proposal was includes a phase in period, whereby the new criteria would apply as public Board member's positions expire. Green shared that one of the existing criteria for public Board members is a commitment to serve and participate in the meetings. For that reason, one of the recommendations is to rescind the current travel reimbursement for public Board members. It is recommended, to encourage participation, that we retain the current policy of providing complimentary registration for public Board members to each of the two NASDCTEc Meetings. It is also recommended that a two-term limit be established.

Another area raised for consideration is a proposal for the future, which is to ensure greater stakeholder input and involvement in NCTEF. Due to the bylaws limitations of three public Board positions, it was recommended that the Board consider liaisons and/or some sort of external stakeholder advisory Board. Green stated that the bylaws require that NASDCTEc have the majority vote on the NCTEF Board; this is achieved by having four shared officers between the two organizations. This was structured to ensure coherence between the two organizations, as well as having the practical benefit of cost savings due to this shared governance (e.g. a single audit, shared insurance policies, etc.).

Hodges said given the refining and clarity of the new Mission, Vision and Theory of Action this framework makes sense. He asked whether trying to fit potential Board members into these

categories made sense, and if having these different types of representatives could hinder us in getting a good Board member who might not fit into the current category. Hodges supported having non-voting liaisons as an option so that they can sit on the meeting and provide prospective input. Hodges just wanted to make sure the categories were not too rigid and didn't hinder our ability to recruit or get strong individuals to serve.

Symonds shared that he feels that these categories are also too rigid and asked whether it was possible to have more than three public Board members on the Board while also having NASDCTEc retain a majority vote in some way. He stated that an employer representative might not be the best fit as there is much turnover in the corporate world.

Green stated that if we are going to have a seven person Board the bylaws state that the State Directors' must have a majority vote and that right now each Board member has an equal vote. Symonds indicated other Boards have been able to have a minority of the Board retain the majority vote. Green agreed to pursue this option with the attorney and accountant to see what options are available with our existing bylaws, what alternatives might be proposed and whether they would advise moving in this direction.

Green shared that the existing public member criteria are very vague and historically, the criteria have allowed the public Board positions to be held by CTE community members rather than external stakeholders. She believes the intent is for the public Board positions to be held by external stakeholders who can bring thoughtful perspectives that can push the thinking and work of NCTEF, while also helping to make connections and support development efforts.

Green asked if there is a desire to loosen up the criteria and maybe have an expanded explanation of who could serve in the proposed three categories of public Board positions. Generally, there was agreement that less specifics the better in defining the categories.

Honeycutt stated that she likes the categories and that we need to stay focused on what kinds of people that we want to recruit to meet the newly established objectives of NCTEF. She thinks the categories are tight enough to keep us focused but loose enough with the "high priority partner" category to give us wiggle room.

Carrier liked the idea of bringing in additional partners on in an advisory position or a non-voting liaison. Green stated it is common to have non-voting formal liaisons, as well as perhaps engaging public Board members to donate content 'experts' to advise the Board as needed (e.g. on marketing, branding, etc.).

Green noted that it was clear that the Board was not ready to vote on the proposed criteria today. Staff will rework the proposal based on today's input, as well as research the requested information with the attorney and accountant. An updated proposal will be shared at the April Board meeting. Because of the late date of this meeting, staff requested additional time to rework the proposals based on today's feedback and to send out Board materials one week from the April meeting rather than the standard two weeks. This means the Board book will not include a consent agenda. The Board was amenable to this recommendation.

Green and Blosveren thanked the Board for their time and noted that we look forward to seeing them in April. Symonds is unable to attend the Board meeting in person, therefore Green and Blosveren will schedule a call with him in advance of the meeting to gain feedback on the revised proposals.

Meeting adjourned at 4:03 p.m. ET

This report provides summary financial information for the period of July 1, 2014 through February 28, 2015 or 67% of the fiscal year.

#### **INCOME:**

To cover its expenses, NCTEF has withdrawn \$37,936.97 out of the budgeted \$72,372.31 in reserves. Most other income categories trail expectations but not in a significant manner other than the workshops. Workshops have not met income expectations largely because we were unable to provide pre-session workshops at the ACTE VISION meeting in 2014. A recent marketing push hopes to remedy lagging sales and plans have been secured to offer two workshops at the VISION 2015.

#### **EXPENSES/LIABILITIES:**

To date, 37% of budgeted expenses have been spent. The majority of expense categories are on target. Accounting fees are over budget. This was due to an underestimation of baseline accounting costs (those that do not vary regardless of size of organization or quantity of assets) and a slight increase in the accounting firm's fees. Of note, is that the CCTC project has been put on hold by the Executive Committee, so there will be no expenses incurred for that line item this year. Also, the 2014 Institute presession revenue share, budgeted for \$3,000, was paid in last fiscal year so no expenses will be incurred in this fiscal year. Staff salaries, at 35% budget, reflect time allocated through December 31, 2014. Although more time will be spent on NCTEF activities in the second half of the fiscal year, due to the elimination of the CCTC project, expenses will mostly likely be below budget at year-end.

#### **ASSETS:**

Compared to last fiscal year, the organization's fiscal position is relatively stable. As of February 28, 2015, the Foundation had total assets at \$338,049.93 and total equity at \$338,027.93. This represents a 6% decrease in assets and an 8% decrease in equity compared to 2014.

## **INVESTMENTS:**

The reports have been prepared by Mark Friese, advisor from Merrill Lynch and reflect investments aligned to the Board-approved investment policy statement. At this time, no modifications are requested for the investment portfolio. The equity portion of the portfolio is exceeding last year's cumulative performance (8.13% compared to 5.83%). The overall portfolio is also doing well, at 5.14% compared to 3.54% last year.

# **NASD Executive Investment Recommendation Summary**

The last few years have been a very unusual investment environment for both bonds and stocks. For bonds, interest rates are currently near all time historic lows and prices are near all time highs. For stocks, the performance over the last few years has been well above long-term historical averages. At the beginning of 2015, interest rates slowly started to rise. If the U.S. economy continues to improve, there will be Federal Reserve action to further increase interest rates. It is important to note, in a rising interest rate environment bonds decline in value. For this reason both the NASD *Association* account and the NASD *Foundation* accounts are near the high range for equities per the investment policy statement. If the economy continues to improve and bonds decline in value we will reevaluate our exposure to bonds.

2014 was an exceptional year for the equity markets. The S&P 500 (general market) returned over 11%, exceeding historical averages. Interestingly, and as we expected bonds did not fare so well returning less than 1% for short-term bonds. Although the U.S. economy is showing strong indications of economic recovery the overseas market have not been as favorable. Recently however, positive improvements in Europe have started to emerge. Our current exposure to the international markets is below 1%.

Sufficient cash is available to meet intermediate cash flow needs that were estimated by the association except as noted above.

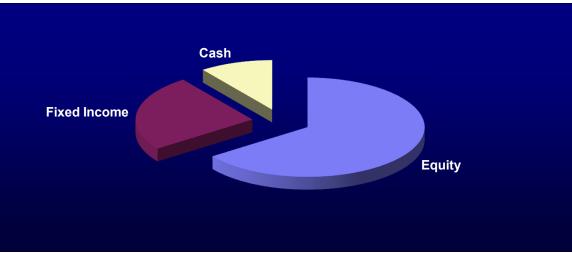

No changes are currently recommended.

# NASDCTEc/NCTEF Finance and Audit Committee

# **MINUTES**

# **CONFERENCE CALL**

January 15, 2015 3 p.m. – 4 p.m.

**Attendees:** Jo Anne Honeycutt, John Fischer, Tim Hodges, Bernadette Howard, Mike Mulvihill

**Staff:** Kimberly Green, Karen Hornberger, Kate Blosveren **Guests:** Don Marshall, Kim Hoffman, Carolyn Skinner

**Welcome:** Honeycutt welcomed the Finance/Audit Committee and thanked them for joining the call.

**Approval of Finance Committee Minutes:** Honeycutt presented the minutes from the September 18, 2014 conference call of the Finance/Audit Committee.

**MOTION:** To approve the September 18, 2014 Finance/Audit Committee minutes.

Mulvihill; Howard. MOTION ADOPTED.

**FY 13-14 Audit Report:** Hornberger introduced the auditor, Don Marshall from Dembo, Jones, Healy Pennington & Marshall, PC. Marshall was pleased to share that the audit went well again this year. There were no issues with the financial statements and the records are in very good shape. He also mentioned that the statements are combined statements covering both the Association and the Foundation due to the shared governance. Marshall explained that the accountant and the staff prepared the footnotes and the financial statements. He stated that no adjustments were needed. Marshall noted that the finances are well-managed, including having good internal controls and bookkeeping practices.

Marshall pointed out that based on the recommendation from the lawyer, it is recommended that the \$110,000 funds from Microsoft, currently sitting in a restricted asset account, be shifted to general NCTEF income next fiscal year. Marshall also mentioned that as NCTEF considers its future fundraising plans, if the organization were to receive any government grants in excess of \$750,000, more rigorous and special auditing requirements kick in due to the OMB a-133 circular.

Marshall stated that he had discussed the investments with Green/Hornberger when reviewing the draft audit with them. Green shared the recent investment policy statement change adopted by the Finance/Audit Committee and Boards which gave the investment advisor flexibility to increase the exposure for stocks/bonds. Marshall pointed out at that time and wanted to underscore with the Committee that he finds the organization to have a lot of money in stocks and bonds in relation to total assets. This is fine when the markets are up but creates a lot of exposure and potential loss if markets decline. The gains, both realized (from sales) and unrealized gains (from holding securities that have gone up in value but you haven't sold yet) can really help the bottom line of the organization and actually become part of the budgeted revenues. The problem is what will the organizations do if the markets go down? A ten percent drop in the markets would translate into a \$250,000+ loss, whether realized (sold) or just the value of holding the securities (unrealized).

Marshall stated that in FY14, there was \$248,403 of net investment income (realized and unrealized gains, interest, dividends, less investment advisory fees). Therefore, if there is a \$250,000 loss, that translates into a swing of negative \$500,000 vs. the \$248,403 gain in FY14.

Marshal feels that the organization may need cash to further fund NCTEF as it reorients itself to a new funding model. This may be one reason to cut back on stocks and bonds. The obvious downside, Marshall pointed out, is that if the markets go up, the potential growth of those investments is lost. In his opinion, we have too much exposure to market fluctuations. Marshall also wanted to note that he is not a registered advisor but has a MBA in finance and is closely tuned into the markets and what advisors are saying.

Mulvihill asked what intra-entity asset and intra-entry liability is on page six. Hornberger stated that it was the Foundation's reimbursement to the Association for staff salaries and benefits dedicated to Foundation-focused work from January 1 – June 30, 2014.

MOTION: To recommend the NASDCTEc and NCTEF FY 13-14 audit report and financial statements to the full Boards of Directors for approval. Howard; Fischer.

MOTION APPROVED.

Review of the 990's: Green shared with the Finance/Audit Committee that once the audit is complete the 990's (tax forms) can be completed because all of the numbers in the tax filing are drawn directly from the audited financial statements. Green specifically brought attention to page six where it describes the policies in place to protect the organization (e.g. whistleblower, records retention, conflict of interest). Carolyn Skinner, Accountant from Dixon Hughes Goodman, LLP, joined the call and shared that there were no areas of concern that she needed to highlight. She indicated that Green and Hornberger go through the 990's very carefully, read all the statements and make adjustments to the statements or ask questions where they are unsure of the language or numbers. This level of attention to detail is commendable. Hornberger asked if there were any other questions for Skinner. There were no further questions.

MOTION: To recommend the NASDCTEc 2013 990's and NCTEF 2013 990's to the full Boards of Directors for approval. Fischer; Mulvihill. MOTION APPROVED.

**Auditors:** Hornberger stated that staff is looking to the Finance/Audit Committee for guidance on selection of an audit firm for FY15. Marshall shared that there is no legal need to change partners or switch firms. With that said, he stated most non-profits do either rotate firms or partners after five years to be proactive and be in alignment with Sarbanes-Oxley (which does not directly apply to non-profits but is used as a guide by most as a measure of good practice).

The original agreement with Dembo, Jones, Healy, Pennington & Marshall, PC was for three years. The agreement was extended to cover the audit for FY14. Staff is seeking guidance for FY15:

- Should we stay the current course and stick with the same firm, same partner?
- Stay with the same firm but change partners?
- Conduct an RFP to select a new firm?

Staff recommends a one-year extension with the current auditing firm, after doing a cost benchmarking. The NCTEF financials will be substantially simpler due to the limited activity in FY15, therefore staff believes the price should be reduced to reflect reduced effort by the auditing firm. Staff further recommends work to begin soon to conduct a RFP solicitation for FY16. Green suggested that there might be times when it is in the best interest of the organizations to consider a new firm, as sometimes firms get comfortable with clients. Starting with anew brings a fresh set of eyes to the books.

**MOTION:** To recommend extending the contract with current audit firm for the FY15

audit. Staff shall benchmark the fees to ensure FY15 audit rates are fair and reasonable given the status of the NCTEF financials. Staff shall begin the

RFP process for selecting a new auditing firm for FY 16-20.

Mulvihill; Howard. MOTION APPROVED.

Green stated that there are no Board-approved polices in place that guide the decision on when or if we should change auditing firms or partners. The Finance/Audit Committee agreed that the organizations should have a policy in place and asked that staff conduct research and bring forward information and a draft audit firm/partner rotation policy to the next Finance/Audit Committee call.

Meeting Adjourned: 4:01 p.m. ET

# NCTEF Vision/Mission/Theory of Action

**VISION**: Through leadership, advocacy and partnerships, NASDCTEc/NCTEF support an innovative CTE system that prepares individuals to succeed in education and their careers and poises the United States to flourish in a global, dynamic economy.

NASDCTEc MISSION: To support visionary state leadership, cultivate best practices and speak with a collective voice on national policy to promote academic and technical excellence that ensures a career-ready workforce.

NCTEF MISSION: To provide the supports and develop the resources and partnerships necessary to ensure high-quality Career Technical Education is advanced throughout the country, leading to a highly skilled workforce and productive economy.

#### THEORY OF ACTION

CTE is "learning that works for America" – from employers, community leaders and local economies to schools and colleges, policymakers, students and parents. NCTEF is committed to advancing a high-quality education and workforce system that works for learners at all levels, employers and the U.S. economy by building capacity and scaling excellence in Career Technical Education.

NCTEF will work to build and promote a positive and supportive environment in which high-quality CTE policies, programs and practice can be developed, nurtured and sustained. NCTEF will serve as a resource to state leaders and national organizations working to implement and advance CTE and career readiness-focused policies and programs, by:

- *Expanding capacity* to help leaders develop strategies, policies and resources that advance CTE and career readiness within states while maintaining consistency of rigor and quality, and
- **Building awareness and support** for high-quality CTE by establishing a bar of excellence and promoting what's working to the full range of existing and potential stakeholders.

## MAJOR AREAS OF WORK/KEY ACTIVITIES

The Foundation will *expand and sustain capacity* to help leaders develop strategies, policies and resources that advance CTE and career readiness within states while maintaining consistency of rigor and quality. Activities in this area of work may include:

- Technical Assistance/Convening
  - o Regional summits around the new CTE vision to catalyze support and action within CTE community and with external partners/stakeholders
  - Advising on state and local CTE policy, independent of and as it relates to federal policy
  - State-focused technical assistance to support the implementation of CTE standards, programs of study cross-sector collaboration, etc.
  - o Career Clusters integration at ACTE's CareerTech VISION
  - Career Pathways Effect workshops
  - o Career Cluster Leadership Pilot/Career Cluster policies
- Research/Tools
  - o An annual "State of CTE" report
  - o Criteria for high-quality CTE programs of study, pathways and credentials
  - o Review platform for industry-recognized credentials
  - Resources to support the implementation of Career Clusters, programs of study, the Common Career Technical Core, etc.

The Foundation will *build awareness and support* by establishing a bar of excellence, promoting what's working and engaging the full range of existing and potential stakeholders. Activities in this area of work may include:

- Excellence in Action awards
- CTE: Learning that Works for America campaign
- Hosting study tours to show national and state partners and other potential supporters of CTE excellence in action
- Engaging external partners through briefings, meetings and other opportunities for collaboration
- Identifying employer champions across the Career Clusters
- Developing research-based messaging to support CTE and career readiness
- Exploring next steps for the Career Readiness Partner Council

Below is a high-level overview of the major activities laid out in the 2014-15 NASDCTEc/NCTEF Strategic Plan, with the activities categorized by the "lead" organization.

NASDCTEc	NASDCTEc/NCTEF	NCTEF
S	nd effective PARTNERSHIPS with ke lanthropy organizations to advance N	ey education, workforce and economic ASDCTEc/NCTEF's priorities.
Develop, maintain and grow partnerships in support of NASDCTEc's federal legislative priorities	<ul> <li>Develop, maintain and grow partnerships in support of NASDCTEc/NCTEF's state policy initiatives/ support</li> <li>Strategic partnerships with business-led organizations to strengthen business involvement in CTE</li> <li>Collaborate and coordinate with ACTE on key initiatives and advocacy efforts, including an operational definition of and criteria for "high-quality CTE programs"</li> <li>Develop, leverage and maintain partnerships that support efforts to provide professional development to our members, their staff and other key CTE stakeholders</li> </ul>	<ul> <li>Career Clusters Leadership Pilot</li> <li>Identify employer champions (one for each Career Cluster)</li> <li>Determine feasibility of CRPC continuation and focus</li> <li>POTENTIAL</li> <li>Hosting study tours to show national and state partners and other potential supporters of CTE excellence in action</li> <li>Expansion of CCLP</li> </ul>
	nd dissemination of legislation and purce development in support of expand	
<ul> <li>Federal legislative priorities that support, promote and increase access to high-quality CTE</li> <li>Support NASDCTEc's members to advance and implement federal policies and legislation that promote and increase access to high-quality CTE</li> </ul>	<ul> <li>State legislative priorities that support, promote and increase access to high-quality CTE</li> <li>A state policy strategy that addresses resources, partnerships, dissemination</li> <li>A set of federal, state and employer-focused case-making resources</li> <li>Media strategy</li> </ul>	<ul> <li>CTE: Learning that works for America campaign</li> <li>Excellence in Action Awards</li> <li>Resources to support state</li> </ul>

- Launch business resolution campaign
- National campaign to get every member of Congress to see a CTE program.

# **POTENTIAL**

- State-focused technical assistance to support the implementation of CTE standards, programs of study, etc.
- Criteria for high-quality CTE programs of study, pathways and credentials
- Review platform for industryrecognized credentials
- Research-based messaging to support CTE and career readiness

# Provide, encourage and support PROFESSIONAL DEVELOPMENT to expand the skills, content knowledge and leadership of NASDCTEc members.

- Host online library of members-focused resources
- Spring & Fall meetings
- Onboarding for new State Directors, members
- Support skills and leadership development of State Directors/state leaders throughout year
- Develop, arrange and/or deliver resources to expand the skills, content knowledge and leadership of NASDCTEc members and other stakeholders such as reports, briefs, webinars, etc.
- Host (virtual or in-person)
   convenings to support planning
   and implementation of next
   federal CTE legislation. (Post reauthorization)
- Conduct and support the Career Pathways Effects workshops with CORD. (MOVED)
- Career Clusters integrated into CareerTech VISION conference

#### **POTENTIAL**

• Support skills and leadership development of state leaders (beyond our membership)

# Develop and implement actions that address NASDCTEc's organizational governance and fiscal security that ensures successful accomplishment of NASDCTEc/NCTEF's strategic goals.

- Review NASDCTEc membership structure to strengthen the organization's fiscal security and membership base
- Review NASDCTEc/NCTEF Board of Directors' governing structure, policies and bylaws to ensure alignment with strategic goals
- Develop and implement a fundraising plan to support public policy, partnerships, and professional development priorities

# Implement Ongoing Core Work of NASDCTEc/NCTEF

		Cc/NCTEF Strategic Plan of 2014-2015			
Target	Goal	Strategy	Timeline	Update	Lead Organization
1. Build and maintain	strong and effective partnerships with key education, work 1.1 - Develop, maintain and grow partnerships in support of NASDCTEc's federal legislative priorities.	force and economic development, and philanthropy organizations	s to advance		
		1.1.1 - Strengthen and expand partnerships with Congress, federal agencies, education associations, post secondary associations, workforce/economic development, employer-focused organizations, companies and labor unions. Utilize the partnership matrix to target, manage and monitor partnership effectiveness.	Ongoing	Staff continue to meet quarterly to reassess the strength and value of each partnership. Partnership matrix is consolidated on an annual basis and supplemented throughout the year.	NASDCTEc
		1.1.2 - Support the ongoing efforts of the Workforce Data Quality Campaign and contribute to its advocacy efforts to support collection of nationally comparable, valid and reliable data.	Ongoing	NASDCTEc has continued to support the work of WDQC which has been helpful in articulating formal positions on issues related to data and CTE. Staff have supported a number of WDQC's formal communications to Congress and the Administration over the past year, regularly attended and engaged with the partner meetings, supported the development of data fact sheets and have participated in Congressional briefings of interest.	NASDCTEc
		1.1.3 - Convene CCSSO, NGA and NASBE to develop a common policy platform to for the state role in Perkins.	Summer 2015	Staff presented to the NASBE Study Committee on Career Readiness. All three organizations are co-conveners of the Future of CTE Summit but none of them have taken formal positions on Perkins.	NASDCTEc
	1.2 - Develop, maintain and grow partnerships in support of NASDCTEc's state policy initiatives/support.				
		1.2.1 - Develop a state policy work plan, to include the identification of priority partner organizations to collaborate with in support of increasing access to high-quality CTE and state adoption/implementation of CCTC.	Ongoing	A full state policy strategy will be shared with the Board at the April 2015 meeting.  Staff continues to meet quarterly to discuss partnerships. NASDCTEc has strengthened	NASDCTEc and NCTEF
		1.2.2 - Partner with key organizations on state policy initiatives (e.g. competency-based education, CCSS, CCTC, post secondary alignment). Utilize the partnership matrix to target, manage and monitor partnership effectiveness.	Ongoing	many partnerships in the past six months, particularly around state policy-focused organizations. In particular, NGA, CCSSO, NASBE and CSG are all Summit coconveners. Staff have presented at NASBE, CCSSO and NSCL events. We also have an active partnership with Achieve around CBE and CTE	NASDCTEc and NCTEF

	T	1	T	
1.3 - Engage in strategic partnerships with business-led	1.2.3 - Engage and support the National Governors Association "America Works" campaign, ensuring positive positioning for CTE.	Spring 2014	NGA is Summit partner and work will be connected through that initiative.	NCTEF
organizations to strengthen business (including or and workforce development) involvement in the Career Technical Education enterprise.				
	1.3.1 - Strengthen and expand partnerships with employer- focused organizations. Utilize the partnership matrix to target,		Staff continues to meet quarterly to discuss partnerships. The Chamber is a Summit co-convener and employer groups are regularly	NASDCTEc and
	manage and monitor partnership effectiveness.	Ongoing	engaged through Perkins coalition.	NCTEF
	1.3.2 - Highlight strong employer-education partnerships through		Staff worked with Project Lead the Way to develop a Friends of CTE blog post. After consideration, Friends of CTE will be broken out into multiple categories including Friends of CTE - Employers featuring employer/industry-specific posts, and general Friends of CTE which will feature national partners like Project Lead the Way (PTLW). PLTW is working with staff to introduce multiple employers for future employer/industry Friends of CTE posts. The PTLW post will be released in late March/early April. Staff is still determining how to best use the examples of employer	
	multiple communications strategies (e.g. Friends of CTE blog		engagement collected during the employer	NASDCTEc and
	series, papers, case studies, resources, etc.).	Ongoing	engagement survey/report.	NCTEF
	Develop case-making resources, targeted to the business community, designed to promote awareness of and seek support for CTE.	Ongoing	In the past six months, we have released three new fact sheets and three sets of talking points to help members, advocates make the case for CTE. The next focus is updating our state-specific fact sheets.	NASDCTEc and
			The CCLP is underway with deliverables	
	1.3.4 - Conduct Career Clusters governance pilot.	2015	expected to be released in Summer 2015	NCTEF
	1.3.5 - Identify employer champions (one for each Career Cluster) to feature in the roll out the business resolution campaign results.	2016	The business resolution is on hold until closer to Perkins reauthorization. Utilitizing CCLP, Perkins coalition and award winners to cultivate employer partners/engagement.	NCTEF
	1.3.6 - Partner with the CTSOs to leverage their employer partnerships for advocacy and advancement of high-quality CTE.	Ongoing	We continue to participate in quarterly NCC- CTSO meetings; partnering with SkillsUSA to co-host tour of Maryland's statewide conference.	NASDCTEc
1.4 Engage in strategic partnerships that raise the visibility of Career Technical Education and NASDCTEc/NCTEF as a leader in the field (e.g., Advisory Boards)				
	1.4.1 - Utilize and manage the partnership matrix to expand and strengthen relationships with external organizations.	Quarterly meetings 2014 - 2015	See above.	NASDCTEc and NCTEF

			lo		1
			Quarterly		NACROTE
			meetings 2014 -		NASDCTEc and
		around partnerships.	2015	COMPLETED and in use. )	NCTEF
				No work has occurred in this space, but is a	
		1.4.3 - Determine feasibility of CRPC continuation and focus.	Winter 2015	possible area of focus for Foundation	NCTEF
1.5 - Develop, lever	rage and maintain partnerships that	1.4.4 Engage DOL, DHHS and other federal agencies to support the alignment and understanding of "career pathways" and other related initiatives	Ongoing	Meet quarterly with OCTAE leadership. A thought partner for the JFF Career Pathways project. Invited three federal agencies to spring meeting. Responded to RFI on career pathways memo. Inviting RPOS grantees to VISION sessions. NASDCTEc also participated in a number of White House events and input sessions.	NASDCTEc and NCTEF
	c efforts to provide professional				
	members, their staff and other key				
CTE stakeholders					
		1.5.1 - Conduct and support the CORD and NASDCTEc CP	defined schedule in 2014	CORD/NASDCTEc developed seven introductory videos to the CP Workshops. All videos were uploaded to the newly launched YouTube channel and promoted through social media channels; we are in process of finalizing MOU with ACTE and CORD for VISION and future ACTE events	NCTEF
		1.5.2 - Strengthen and expand partnerships with key education/workforce development organizations, institutions, etc. to support effective PD opportunities. Utilize the partnership	On analysis	We continue to meet quarterly to discuss partnerships. In discussions with CORD, ACTE, CCSSO and SREB on how to support states. A potential area of collaboration for the Foundation.	NCTEF
1.6. Collaborate an	nd coordinate with ACTE on key	matrix to target, manage and monitor partnership effectiveness.	Ongoing	the Foundation.	NOTEF
	cacy efforts in support expanded				
		1.6.1 - Co-convene a joint Executive Committee meeting between ACTE and NASDCTEc/NCTEF.	January 2014 & 2015	Completed; planning for this to stay an annual meeting.	NASDCTEc and NCTEF
		1.6.2 - Develop a plan to implement the recommendations and		AOTE and NAODOTE a basic desired	NAODOTE
		outcomes from the joint ACTE/NASDCTEc Executive	0	ACTE and NASDCTEc have developed a	NASDCTEc and
<u> </u>		Committee.	Ongoing	joint work plan and update it quarterly.	NCTEF
			Fall 2015	This work is in process. ACTE staff who lead this effort reconsiders her doctoral thesis. In the interim, NASDCTEc has developed federal policy language to advance this concept. Also, NASDCTEc is participating with the Central REL and related states to develop a matrix of quality criteria. This will also likely be influenced by the Summit.	NASDCTEc and NCTEF
2. Engage in the formation and dissemina		t impacts education, economic, and workforce development in sup			
2.1 - Develop feder	ral and state legislative priorities that nd increase access to high-quality				

		1	T	1
	2.1.1 - Solicit information from membership about reauthorization priorities through surveys, working groups, and other means.	Ongoing	Staff have successfully crafted new HEA recommendations which have been approved by the NASDCTEc board of directors. Association recommendations for ESEA have also been updated with board input and final approval. NASDCTEc is currently seeking Board approval for how to formalize the association's position on several technical provisions contained in the Perkins Act.	
	2.1.2- Develop and disseminate legislative language to     Congressional and federal policymakers, as well as other     stakeholder associations, to influence the reauthorization     process.	Ongoing	Work on legislative language continues. This year staff plan to address the national activities section of the law and to consider a replacement proposal for Title II. This language is still evolving based on membership feedback and feedback received from Congress to date.	NASDCTEc
	2.1.3 - Engage members of Congress and staff during reauthorization through briefings, school visits, and other advocacy activities.	Ongoing	NASDCTEc promoted and attended a school visit to Montgomery College in partnership with ACTE during CTE Month (February); we are planning a tour of SkillsUSA Maryland's statewide conference in April. John Fischer testified before Congress and Kimberly Green testified before the House CTE Caucus. Staff have been engaged in a number of Senate CTE caucus briefings.	NASDCTEc
	2.1.4 - Host regular Perkins coalition conference calls to support organizational priorities and unify advocacy efforts during reauthorization.	Ongoing	These calls are currently on hiatus until Perkins reauthorization begins to move.	NASDCTEc
2.2 - Support NASDCTEc's members to advance and	2.1.5 - Develop a state policy work plan, that may include the creation of sample state legislation and policies in support of increasing access to high-quality CTE and adoption/implementation of CCTC and Career Clusters	Spring/Summer 2014	A full state policy strategy will be shared with the Board at the April 2015 meeting; as of now it does not focus on creating sample legislation, but will further expand our state policy work	NASDCTEc and
implement federal and state policies and legislation that promote and increase access to high-quality Career Technical Education.				
	2.2.1 - Host quarterly advocacy calls for State Directors and staff.	Ongoing	Quarterly advocacy calls have been scheduled for the remainder of 2015.	NASDCTEc
	2.2.2 - Develop and host resources and workshops related to Perkins implementation following reauthorization.	Post- Reauthorization	Still contingent on Perkins reauthorization progress. Currently on hold.	NASDCTEc

	1			
			Pre-recorded webinars continue to be	
	2.2.3 - Develop pre-recorded webinars on relevant policy and		available on NASDCTEc's website:	NASDCTEc and

**Background:** It has been recommended that it is time to rebrand the Foundation. The current name does not have much recognition in the field and is very close to the Association name, leading to potential for confusion as we seek to position the Foundation with a unique identity and mission. The name the NCTEF Board agreed on is the "Learning that Works Foundation."

We did some research into the best options for such a rebrand to determine how we should proceed. Specifically, we explored using a DBA ("Doing Business As") versus a full name change.

**Option 1:** To file for a DBA, it is a matter of filing a form with Delaware and Maryland, the states in which we are incorporated. The filing fees are nominal and would take about an hour of the attorney's time to help with the filing. It is also recommended that a search of existing corporate names in Delaware and Maryland. With a DBA there would be little to no impact on staff time. The other advantage is that this approach gives us more flexibility.

Estimated Cost: \$750

**Option 2:** For a name change, it would be necessary to file a Certificate of Amendment in Delaware and to amend the authorized to do business in Maryland certificate. The filing fees would be a bit more and would take about two to three hours of the attorney's time. We would also need to notify the IRS via a letter. It is recommended that if we do a formal name change, that it may be worth doing a more expanded formal name search to be sure there is not an organization that has an identical or confusingly similar name. If we choose to go with a formal name change there would be a significant amount of staff time needed as all accounts including, Bank of America, Merrill Lynch, vendor accounts, sales and use tax, etc. would need to be changed.

Estimated Cost: \$1500

We believe that if we go with option one it gives us a chance to "try" the new name without making any permanent changes to the corporate name and giving us the option to return to the original National Career Technical Education Foundation if needed. It is also faster and less expensive, and would not require us to retroactively update files, resources or other NCTEF-branded materials.

36

# **Proposed Criteria for NCTEF Public Board Members**

Submitted by Kimberly A. Green, Executive Director and Kate Blosveren, Associate Executive Director

**CURRENT NOMINATIONS CRITERIA:** As the Nominations Committee considers candidates for the public member representatives to the NCTEF Board, the following criteria currently stand, as approved in April 2011:

- Actively involved in the field of education (per the bylaws).
- Demonstrated knowledge and commitment to the mission and focus areas of NCTEF.
- Ability to serve (support of individual's administrator or Board for travel, time, etc.)
- Members of trade associations, education sector, state staff, and others engaged the process of CTE may be considered by the Nominations Committee.
- Utilization of the National Career Clusters<sup>®</sup> Framework to identify eligible industry sectors represented among the public members considered by the Nominations Committee.

#### PROPOSED NOMINATIONS CRITERIA

Below are the proposed updated criteria for Board consideration:

- Actively involved in the field of education (per the bylaws).
- Demonstrated knowledge and understanding of Career Technical Education or workforce development
- Commitment to the vision, mission and strategic goals of NCTEF.
- Willingness to serve as a spokesperson and advocate for NCTEF.
- Willingness to participate in the development activities of NCTEF.
- Willingness to commit to the NCTEF Board member position description requirements and obligations.
- Ability to serve (support of individual's administrator or Board for travel, time, etc.)

Rather than having three public member positions that can meet any of the critiera, it is recommended that each public member have a 'category' that reflects an influential stakeholder/community:

- One representative from the employer community
- One representative from the philanthropic community
- One representative from a high-priority partner

While it was determined that descriptors of the above categories not be added to the formal policy, it might be helpful to consider the breadth of the types of candidates that could fit into each category:

• Employer community: A leader from an organization/association that represents business, workforce or labor interests, such as the U.S. Chamber of Commerce, the National Association of Manufacturers, the Business Roundtable, or the AFL-CIO. This position could also be filled by someone who works for a specific company, for example, Maura Banta of IBM or Yonnie Leung of PG&E. The specific role this individual has within the company, or the division in which he/she sits (e.g., Human Resources, Corporate Social Responsibility, etc.) is less important than the candidate's understanding of and

commitment to education and workforce development and ability to be an active contributor. This requires a baseline of knowledge about CTE and a national perspective. Tim or Cheryl could fit into this category.

- *Philanthropic community*: These are representatives of organizations or companies that provide grants or other investments aligned to or supportive of NCTEF's mission and theory of action. Cheryl could fit into this category.
- *High-priority partner*: This is the broadest category of all. It is intentionally undefined with the expectation that the Nominations Committee would consider the strategic goals and near-term priorities, as well as the experience and perspectives that the other two public Board members bring to the organization. It is intended to give the Nomination Committee flexibility in identifying the most critical voice needed on the Board. Bill or Tim would currently fit into this category.

A phase in of the new criteria is recommended as follows:

- FY16 (term July 1, 2015 June 30, 2018): high-priority partner representative
- FY17 (term July 1, 2016 June 30, 2019): employer representative
- FY18 (term July 1, 2017 June 30, 2020): philanthropic representative

There was not agreement among NCTEF Board members as to the proposed phase in process. This issue needs further consideration and clarification at the April 2015 meeting.

Additionally, related policy changes are recommended and would become new policy immediately upon affirmative vote of the NCTEF Board:

- No NCTEF public Board member can serve more than two, three-year terms. This policy would go into effect immediately and apply as current Board members' terms expire.
- Rescind travel cost reimbursement as it is in direct conflict with the existing Board commitment/nominations criteria "ability to serve (support of individual's administrator or Board for travel, time)." This policy would go into effect beginning FY16 or July 1, 2015.

It is recommended that the current policy to provide complimentary registration for NCTEF Public Board members to attend the two NASDCTEc annual conferences remain in place. This is valued as \$1,250 for non-members.

## **BOARD LIAISONS:**

The NCTEF Board discussed two potential types of liaisons. "Formal" liaisons and "informal" liaisons. It is standard for boards to have 'formal' liaison positions, normally associated with a specific partner association or organization. Informal liaisons would more likely serve "at the leisure" of the Board and be invited guests to participate or contribute to specific Board meetings and specific Board discussions.

In the past, the NCTEF Board has not had liaisons; the NASDCTEc Board does have three liaisons: (1) U.S. Department of Labor's Employment and Training Administration; (2) U.S. Department of Education's Office of Career, Technical and Adult Education and (3) the Career Cluster Leadership Council. The role and contribution of the liaisons was not clearly defined and participation has been spotty. Based on this experience, we need to be strategic and thoughtful about who we engage and why.

# **Questions for Board feedback:**

#### Formal liaisons:

- What is the specific role would the "formal" liaisons have? Think about a "job description" for this role.
- What organizations or individuals would be beneficial, from a partnership perspective, to engage as a "formal" liaison to support the current and near-term conversations and decisions facing the NCTEF Board of Directors?
- How many "formal" liaisons should be added and when?
- Will a "formal" liaison have access and full participation in all Board meetings and all portions of Board meetings? Access and participation in a portion of the in-person or all Board meetings? Or separate engagement around specific issues, challenges?
- Will "formal" liaisons benefit from the NASDCTEc conference registration waiver policy?
- Should "formal" liaisons serve a specific term (aligned to our fiscal year)?
- Should "formal" liaisons have a term limit for the individual representing the organization on the NCTEF Board?
- What is the procedure to adding "formal" liaisons to the Board? Presidential appointment? A consensus or majority vote of the Board?

#### **Informal liaisons:**

- What is the specific role of each "informal" liaison we wish to invite to participate in the meetings?
- Considering "informal" liaisons, are there are individuals, organizations or perspectives that we wish to engage in the current or near-term conversations or decisions facing the NCTEF Board of Directors?
- How many "informal" liaisons should we extend invitations to? When should they be invited to participate and when do we determine when participation is completed?
- What's the value add to them?

Upon an affirmative vote of the NCTEF Board of Directors, the above criteria would become the new policy to guide the FY16 nominations process and selection to fill the expiring term of one of the NCTEF Public Board member positions.

# **RE:** Governance question

#### Good morning Kim:

I advise against any plan that would remove the NASDCTEc numerical majority of directors on the NCTEF board.

From a corporate standpoint, as you know NCTEF is a Delaware nonstock corporation, and Delaware law does not allow for modification of the basic "one vote per director" rule except by stock corporations and membership organizations. NCTEF of course has no stock and no membership.

For tax purposes NCTEF is a Type I supporting organization of NASDCTEc, and it is on this status that NCTEF's Section 501(c)(3) status is based. Under IRS regulations, the supported organization (NASDCTEc) controls the Type I supporting organization (NCTEF) by having a majority of the director positions on the board of the supporting organization. We cannot change that without affecting the tax-exempt status of NCTEF.

Please let me know if you have any questions or need anything further.

Thanks.

Hugh

Kim,

I have spoken to Bert about this, it is not an issue that I have dealt with before. So the answer to your first question is no, this is not a common practice with not-for-profits unless it's common among very large nonprofits.

I think an insurance agent would need to answer you on the insurance issues. I can speak to the combined financial statements. Combined financial statement are appropriate for entities under common control, and where the combined financial statements are more meaningful then separate statements. I do think there is a savings to doing the combined financial statements. The exact difference would be a question for Don Marshall.

Bert feels that it would take us quite a bit of time to figure out the legal aspects and I'm not sure you would want us spending time on it in addition to the attorney. With respect to IRS, you are already filing two separate returns but some of the reporting may be different. Beyond researching what would change, I don't think there would be significant increased time to prepare the 990's.

I clipped some 990 instructions below that shows all the forms that are used to discuss the relationship with other entities.

The organization must determine its related organizations for purposes of completing Form 990, Parts VI (Governance), VII (Compensation), VIII (Statement of Revenue) and X (Balance Sheet), Schedule D (Form 990), Schedule J (Form 990), and Schedule R (Form 990). See instructions for those parts and schedules for related organization reporting requirements.

I would assume that your Bylaws would need to be changed, but I will defer to the attorney on the legal issues.

We are happy to investigate this further, but in the interest of time, did not want to proceed without your approval.

Submitted by Kate Blosveren

As we begin to re-focus the work of NCTEF, which will include the development of a fundraising strategy, an issue that needs to be addressed upfront is that our potential relationship with vendors. For purposes of this discussion, we are defining vendors as any company (non-profit or for-profit) that sells resources to members of the CTE community, such as curriculum, technology or professional development.

Currently, our main vehicles for engaging vendors are NASDCTEc's organizational membership category, sponsorships at NASDCTEc's Fall and Spring meetings, and other ad hoc partnership activities (i.e., attending meetings, co-hosting webinars, etc.) as they make sense.

However, in the past year or so, we have noticed a greater interest in partnering in other ways – around curriculum development and validation, overall organizational strategy, etc. – particularly as more vendors enter the CTE space. Given the potential opportunities, as well as conflicts of interest, that might arise with the re-focused NCTEF, we thought it was worth raising the question of how we might work with vendors.

Ultimately, we see two potential approaches:

- 1. OPTION 1: Maintain all vendor relationships through NASDCTEc, including pursuing year-round sponsorships. (STATUS QUO)
- 2. OPTION 2: Accept donations and/or funding from vendors, but based on predeveloped criteria, for activities such as research and co-convenings, and make this part of our development/fundraising strategy.
  - 2a: We limit any funding to donations and/or funding for work aligned to theory of action/strategic plan.
  - 2b: We also explore building out a new line of fee-for-service work to evaluate alignment of materials to CCTC.

## **Discussion Questions**

• Which option do you prefer? What are pros and cons of each?

*If we pursue either approach laid out in the second option:* 

- Should we consider developing a process for evaluating curricular resources/materials to determine their alignment to CCTC/Career Clusters? What are the implications from a staffing, legal and financial perspectives?
- From whom would we <u>not</u> accept funding (specifically types of vendors, or for specific services?) What are the thresholds?
- For which activities would we <u>not</u> accept funding? What are the thresholds?
- Would we allow any vendors/sponsors to support the Future of CTE Summit?
- Should we try and solicit donations?
- How might this affect NASDCTEc's sponsorships?
