

Career Technical Education (CTE) is a proven strategy that expands options for learners, empowers them to choose a meaningful and sustainable career, and prepares them with realworld skills for success in college and careers. Through hands-on learning, engagement with industry experts and rigorous academic and career-focused coursework, CTE is learning that works for New York's students – and its economy.

## **CTE Works for Learners in New York**

**CTE Enrollment<sup>1</sup>** 

## **High School Graduation**

**188,567** High School 189,154 Postsecondary **79%** New York Average<sup>2</sup>

**92%** CTE Concentrators<sup>3</sup>

## **Outcomes for Learners in New York<sup>4</sup>**

- high school CTE graduates postsecondary CTE students 61% 97% enrolling in college, enlisting in the staying enrolled and/or military or working within six transferring months postsecondary CTE students postsecondary CTE graduates 46% 87% earning a credential, certificate or placed in careers or further degree training within six months
- Fun fact: New York City is the birthplace of Pathways in Technology Early College High School (P-TECH), an
  innovative early college high school model developed in partnership with IBM that blends academic and technical
  instruction and allows learners to earn a high school diploma and an associate's degree in six years. Since 2010,
  the model has spread across New York State and across the nation.<sup>5</sup>

## **CTE Works for New York's Economy**

- Middle-skill jobs those requiring some postsecondary education and training, but not a Bachelor's degree account for 50 percent of New York's labor market.
- However, only 38 percent of workers in New York are qualified to fill these middle-skill jobs,<sup>7</sup> leading to a skills gap that CTE can help address.
- In total, 96,545 associate's degrees or certificates were awarded in New York in 2015 about 30 percent of all
  postsecondary degrees and certificates.<sup>8</sup>

In New York, the top middle-skill occupations with the highest projected job openings are in the Health Science Career Cluster.<sup>6</sup>
