

Career Technical Education Works for Students

- Eighty-four percent of CTE concentrators in Nevada graduated high school in 2013,ⁱ compared to the national average of 81 percent.ⁱⁱ
- According to a national survey of CTE students, about one-third report having the chance to earn college credit, a certification or a degree because of their CTE coursework and two-thirds report having gained skills that will help them in the future.ⁱⁱⁱ
- Thirty-three percent of CTE program completers earned Nevada's Advanced Diploma, compared to 27 percent of all graduates.^{iv} In addition, more than 4,000 students earned postsecondary credit while in high school through articulated CTE courses.^v
- About 51 percent of all postsecondary degree and certificates awarded in Nevada in 2010 were associate degrees or certificates, about 11,400 in total.^{vi}
- About 10,100 students in Nevada participated in at least one Career Technical Student Organization (CTSO).^{vii}

CTE IN NEVADA

- ✓ About **55,100** high school students are enrolled in CTE
- ✓ About **27,300** postsecondary students are enrolled in CTE

Key Indicators of Success in Nevada: 2013-14^{viii}

CTE Students Proficient in Reading, Language Arts	91%*
CTE Students Proficient in Mathematics	89%*
CTE High School Graduates Placed in College/Careers	96%*
Postsecondary CTE Students Earning a Credential, Certificate of Degree	59%*
Postsecondary CTE Students Staying Enrolled and/or Transferring	62%*
Postsecondary CTE Students Placed in Careers/Further Training	97%*
*Indicates that the state met or exceeded 90 percent of the final agreed upon performance levels for each indicator as negotiated with the U.S. Department of Education.	

Career Technical Education Works for the Economy

- Middle-skill jobs account for 51 percent of Nevada's labor market, but only 49 percent of workers in Nevada possess the required skills,^{ix} leading to a skills gap, which CTE can help address.
- By 2018, the Hospitality & Tourism Career Cluster[®] is projected to be Nevada's largest cluster overall, accounting for 425,500 jobs, but Health Science will be the fastest growing, with jobs in this sector increasing by 46 percent.
- In all, Nevada will gain about 401,700 jobs, for a total of 1,762,500. About 54 percent of all jobs will require some education and training beyond high school, including 166,000 that will require certificates.^x

If Nevada increased the number of citizens with certificates or associate degrees by 10 percentage points, the state would have:^{xi}

- ↑ \$783 higher median per capita income
- ↓ 5,600 fewer unemployed individuals
- ↓ 14,700 fewer individuals living in poverty

Career Technical Education Works for America

- **\$168 BILLION** = Estimated lifetime gain from CTE's impact on reducing the high school dropout rate.^{xii}
- **\$806 BILLION** = Estimated income added to the U.S. economy by community colleges.^{xiii}
