

Career Pathways

Provide opportunities for more specialization in your field of interest. In your pathway of choice, you can gain more expertise and experience in certain topic areas and begin to learn the career-specific skills to prepare for your career.

Correction Services

Protect citizens from crime and disaster. Manage offenders serving jail sentences by helping to rehabilitate, educate and reintegrate them into society.

Emergency & Fire Management Services

Help protect the public by being the first to respond to emergencies including fires, traffic accidents, medical emergencies, and other crises.

Law Enforcement Services

Help protect public safety by maintaining order and enforcing laws. Prevent crime, respond to traffic violations and conduct investigations.

Legal Services

Create and uphold the laws that govern our society and protect people. Provide critical legal support to a team committed to a strict ethics code.

Security & Protective Services

Provide security by monitoring routine operations including the inspection of people and packages. May serve as a guard for private information and data.

Driving Trends

- ✓ Increased use of **technology** in operations
- ✓ Aging population of public service employees
- ✓ Changes to local, state and federal laws
