How to Talk about CTE Without Limits on Social Media

For use on LinkedIn and/or Facebook, @Advance CTE

Last fall, Advance CTE co-hosted the CTE Forward Summit in partnership with nine national organizations, bringing together 200 leaders to set a new vision for the future of Career Technical Education (CTE). It was clear that now is the time to craft a bold vision that envisions a world where each learner can access and be successful in high-quality CTE programs without any limitations or barriers.

Without Limits: A Shared Vision for the Future of Career Technical Education (CTE Without Limits) lays out five inter-connected and equally critical principles, foundational commitments and a call to action for national, state and local CTE leaders.

[Organization] is pleased to join Advance CTE and 37 other organizations in supporting this vision. Only through a shared commitment and action at all levels can we realize the possibility and aspiration of a new career preparation ecosystem that supports each learner on a limitless path to career success.
